rob@schacherauction.com • www.schacherauction.com

Dear Friends and Cattle Producers,

I am excited to present the Fifth Annual Texas Wagyu Breeders Sale. It is hard to believe how far we have all come in the last five years. This will be the biggest sale to date proudly offering over one hundred lots. The sale has not only grown in quantity, but in quality and notoriety as well.

Cattle demand remains high in the United States and beyond as our nations cow herd is at its lowest level since the 1950's. As cattle and beef prices rise due to our inventory situation, the consumer is going to demand a higher quality more consistent product. The Wagyu Breed is uniquely positioned to meet the demand by offering a well marbled consistent cut of beef. The high quality beef coupled with the built in calving ease makes Wagyu a perfect cross on today's commercial cow herd as well.

Take advantage of today's cattle market. Sell your older and poorer quality cows in this market while their value is at a premium, and replace them with high quality young cows that can produce for years to come. This year's sale features the largest number of females that we have ever offered, so be sure to be with us on April 12 and invest in the future of your herd.

This year's sale also features the complete dispersion of the T.J. and Malinda Peters Best Agra Herd. Please see page 10 of this catalog for details.

I look forward to seeing you in Salado. Be sure to join us on Friday afternoon and evening while our gracious hosts, Kuempel Wagyu, Strube Ranch, Jim and Joan Chisholm and Jackman Cattle Co. treat us to Wagyu Burgers and Fajitas.

Sincerely,

Robert Schacher
Robert Schacher

**The Texas Wagyu Association is proud to host speakers at the
Texas Wagyu Association General Meeting Friday, April 11, following a Wagyu Burger Lunch
Sponsored by Kuempel Wagyu and Strube Ranch at 12:00 NOON. Meeting at 1:00 PM.**

Presentation by Dustin Dean, an introduction to our sponsors, followed by the Texas Wagyu Association Meeting.
Meeting will include the election of new board members.

**Please join us for our Friday Night Social from 5:00 PM - 7:00 PM
Sponsored by Chisholm Cattle Company and Jackman Cattle Company.**

Fun auction will occur just before the social.

Directions to Tenroc Ranch:

From I-35, take exit 284 and go west two miles and turn left into the Tenroc entrance. Once inside Tenroc entrance, go through gate to the right to get to the cattle events site.

THE STEAKS ARE HIGH *donors*

KAEDEMARU • CLONING RIGHTS SELLS AS LOT 1

LOT 1

Once in a Lifetime Offering for the exclusive rights for the cell lines for FB9978 - Kaedemaru.

Born on January 1, 1995, she is one of the last living original imports from Japan. "Kaedemaru" is sired by "Dai 10 Mitsumaru", thought to be perhaps one of the greatest Akaushi sires ever. Her dam is none other than "Dai 3 Namiaki", who herself is another original import from Japan sired by "Dai 10 Eihou" x out of a "Shigeharu" dam x out of a "Ryumei" grand dam (Ryumei is also the sire of FB101 - Rueshaw). "Kaedemaru" herself is known for being the dam of FB9979 - WSI Umemaru. She is tested free of all genetic recessive diseases and the purchaser of this lot will receive the banked genetic cell lines and the exclusive rights to any future cloning.

Bid last and own a piece of history.

1 KAEDEMARU CLONING RIGHTS

Red, Horned, Fullblood Cow

Birth Date: 1/1/95 Reg. No. FB9978

LOT 2

Rubi 98 is from excellent genetics being a daughter of Kalanga Red Star. Her dam sired by Shigemaru out of a HB Big AL daughter. Free of genetic defects.

IWG Ms RUBI 98 • SELLS AS LOT 2

LOT 3

Here we have a cow that has all three of World K's "Big Three" in the pedigree. The cow families of the famed Suzutani, Okutani, and Rikitani are all present in this powerful Black pedigree. Fujiko 2 is sired by Hirashigaru-FB11816 (a Hirashigetayasi from a full sister to Shigeshetani). A large framed, high growth sire with extreme marbling. The dam of Fujiko 2 is sired by Genjiro-FB5200 (a full brother to Beiiro-FB2289 and a full sister to Fujiko-FB1984). Beyond this, the maternal line traces direct to Rikitani-FB1618 (made famous by sires Kanadagene 101-FB14909, and Australian sires- Overflow Katsumi, Longford Tojo, Longford Honjo, and Longford Zaki). Safe in calf to "WSI Dai 2 Sanjiro" -FB13797. A rare offering direct from the Rikitani Family. Genetic disorder test pending.

This heifer is a blend of the Tajima and Shimane bloodlines. She is 75% Tajima and 25% Shimane. Her sire, KR Mich 400-351, has the #1 low back fat bull and the # 4 & 5 rib-eye area bulls in his pedigree. Her maternal grandsire, Itohana 2, adds growth and maternal quality to her pedigree. At a very early age of only 289 days, she was scanned for IMF and scored 5.8. She is free of genetic disorders. Birth weight 51 lbs.

Sells open.

This is a very nice heifer sired by our Yakitomichi 766T-0478 bull (FB11441) bred by the famous Lone Mountain Ranch. Sires bloodlines have Takazakura (FB5972), LMR Hiroshi 766T (FB 7794), BR Itomichi-0602 (FB 5827) and many more big names on back in the pedigree. On the Dam side, she has Fukutsoru-068 (FB2101), TF Kikuhana (FB-2127), and JVP Yasotaniyoshi 408 (FB3082). This genetic diversity will produce high marbling Wagyu cattle with good growth rates coming from the top side. Free of genetic disorders.

Sells open and ready to breed or flush.

LTR Ms Yakiyasu is an open heifer from some of the most respected bloodlines from some of the best Wagyu breeders in the World. Looking back into her pedigree, on the top side, Sire is LTR Yakitomichi 766T-0478, (FB11441), you also will find names like World K's Yasafuku Jr. (FB5061), World K's Takazarkura (FB5269), BR Itomichi 1/2 (FB2126), and Hirashigetayasu J2351 (FB670). We acquired the sire when we purchased a bred cow from Lone Mountain Ranch in New Mexico, and have used him quite often with great results. The bottom side is equally impressive with names appearing like Suzatani (FB1617), World K's Huruiki 2 (FB1614), as well as Monjiro 11550 (FB 201). This open Heifer is a melting pot of some of the most sought after genetics in the black Wagyu herd. Free of genetic disorders.

BLB MS Sazanami 1212 is a true donor cow prospect. She has performance, confirmation, and pedigree. She produced outstanding data at the Genetic Development Center summer 2013 test. Even in a typical hot Texas summer she had an average daily gain of 2.63 pounds per day. As a yearling she exhibited excellent muscling with a 1.30 REA/cwt., and a high quality carcass with 6.36% IMF. Her visual conformation is superb. When I see her I wish I had a whole pasture full of her kind. Her pedigree consists of the most proven sires in the breed. I estimate her full blood pedigree to be 91% Tajima, 6% Shimane, and 3% Okayama. BLB MS Sazanami 1212 is CL 16 free, Band 3 free, CHS free, F11 free, and F13 free.

T.J. AND MALINDA PETERS, BEST AGRA
complete wagyu dispersal
LOTS 26-34

In the Fall of 2013, the livestock industry lost a friend and pioneer, T.J. Peters. T.J. was constantly trying to improve the Cattle business by using new genetics, cattle and ideas to develop a problem free cow that would consistently produce the finest beef. He used the Wagyu influence to improve the marbling in his commercial cross cattle that included Tuli and Angus. T.J. was truly a forward thinker.

More than all of that, T.J. was a friend. I knew T.J. for over 20 years, and I can never remember seeing him with anything other than a smile on his face. If you had ever met him, he was your friend as well. If you needed a laugh, T.J. could handle that.

The cattle featured here are the results of T.J.'s efforts to produce high marbling, high quality cattle. They are stout and functional cattle that will mesh with any progressive Wagyu Herd. The calves at side and the calves that they are carrying are what T.J. was striving for. They are sired by a TAngus Bull (5/8 Angus and 3/8 Tuli). They will be low maintenance, heat tolerant and have excellent carcasses.

As of the print date of this catalog, the genetic defect tests have been ordered and are pending.

WSI HINOMARU	MOMI GI MARU	NAOMI

Most times a Red Wagyu sire is bred to a Black Wagyu cow-this is a unique lot with a Black sire being bred on a Fullblood maternal line. The dam of "WSI HinoHaru" is a Fullblood Red Wagyu from Sekai's "Naomi Family"-see is sired by Shigemaru. The maternal grand dam, Momigimaru-FB10979-is sired by the great Japanese Red Sire, "Namimaru"-FB373. Both the maternal grand dam and the great grand dam, "Naomi" were both direct imports from Kumamoto, Japan. WSI HinoHaru is sired by Kitano Yasufuku-FB10982 (a Yasufuku Jr. grandson from the famed Okutani Family). "Kitanon Yasufuku's" maternal grandma is s full sister to World K's Beijirou-FB2289 (semen from this sire was sold out a \$200/dose) And to Fujiko-FB1984 (cell lines from this cow sold for \$25,000 in previous Steaks are High Sale). A great combination of Black Wagyu on a strong Red Wagyu maternal line. Make no mistake, WSI HinoHaru may look black, but her maternal line is Fullblood Red Wagyu. Genetic disorder test pending.

Safe in calf to FB13797

YCB MS ITOHANA2 2201	TF HIKOKURA 2/25	HIKOKURA 2/22

If it's one thing the U.S. Wagyu herd needs, it's a broader genetic base. With a half Kumamoto and half Fujiyoshi pedigree, here's an excellent donor prospect to help do just that. These strains are an excellent complement to our predominantly Tajima based population, which lacks milk and growth. Her sire is a 100% Kumamoto son of the foundation bull, Hikari. This strain produces consistently high quality carcasses and above average feed conversion and gain. These cattle are thicker and provide more milk than the black strains. Her dam is a 1st generation offspring of the famed Takeda Farms original import herd. Their main herd sire, Itomichi, appears 3 times in her pedigree and she traces back 7 times to Japan's most famous bull, Dai 7 Itozakura. This heifer's unique genetics will allow breeding for red or black calves and will increase the gene pool of both populations. When bred to a red sire, half the calves will be red; when bred to a black sire, the calves will typically be black. Free by pedigree of the genetic disorders.

Sells open and ready to breed or flush.

LTR Shigefuji 307 (FB16065) is a Powerful Mating that will produce some of the best Wagyu cattle available. A Shigeshigetani 100 (FB2907) son. This semen is \$100 per straw, IF you can find it. Huruiki 2 (FB1614), Suzutani (FB1617), Monjiro 11550 (FB201), and Suzunami (FB227) all appear on the Sire's pedigree. This is the best of the best. The dam is a rare TF147 daughter, free of all genetic disorders. Her sire, Itoshigefuji 100 (FB 3681) weighed approximately 2400 lbs. and produced some of the best offspring known. These are some of the best bulls we have seen. This is an excellent opportunity to acquire the very best genetics in the Wagyu herd. Free of genetic disorders.

LTR Shigefuji 304 is a out of our TF 147 Daughter of Itoshigefuji 100 (FB319) . This cow is one our best foundation animals and thus far has produced offspring with tremendous growth potential and they grow fast. The Sire of LTR Shigefuji 304 is Shigeshigetani 100 (FB2907). Shigeshigetani 100 is without doubt one of the most sought after bulls in the Wagyu world. His semen is rare and expensive. We believe this bull has the ability to produce calves with outstanding marbling and tremendous growth potential. Looking back to when I started breeding Wagyu Cattle, if we had been afforded the opportunity to purchase a bull with this genetic makeup, it would have saved us a few years of breeding up. This is a great opportunity, this bull will produce great calves with a powerful pedigree. Free of genetic disorders.

	AINO 6 ITOSHIGENAMI	
CF 505	HIKOKURA 1/10	

1012X is a young bull sired by TF38 Itohana 2, a Fujiyoshi line bull. The progeny of TF Itohana 2 exhibit excellent maternal ability, good milking ability, and good frame size. He is a male calf of Aino 6, a notable fact given that 100% of the carcass (17 of 17 cattle slaughtered) from the Aino group graded A-5, the highest grade possible. 1012X's dam is CF505, a daughter of TF148 Itoshigenami over an Itomichi sired daughter. TF148 has the highest percentage of Kumanami line genetics outside of Japan having a double cross of Shigekananami on his sire side plus another line through his maternal grandsire. TF148 is known for producing A5 carcasses with fine, white marbling. This bull offers enviable outcross genetics to most Fullblood wagyu breeders and is an excellent prospect for AI sire. For rotational breeding, he is classified as a group C Sire. Free of genetic disorders.

	TWA MUSUME	

Here he is! The 2014 Houston Reserve Grand Champion WCC Rockstar! This bull was born and raised on 30,000 acres of open desert range in northwest Utah for the first nine and a half months of his life and yet still somehow managed to post a rib eye of 15.42, a BMS of 6.36 and back fat of .24 all at under 14 months old while getting lead and feed bunker broke! A favorite of Japanese cattlemen at the big show in Houston this year, this magnificent specimen is muscular and masculine with good structure and a good way of going. Rockstar boasts an elite pedigree of a Hikari sire line (Hikari is regarded by many of the early US wagyu breeders as the best marbling of the original red sires) stacked on top of a Big AI over Big AI dam. (Big AI has been a stand out, elite growth sire for the entire breed). The best of marbling over the extreme best of growth, stacked up close and personal, what more could you want? Rockstar is the complete package who will only get better as he matures and he will positively impact any registered herd or commercial F1 program. How would a highly mobile, open range raised, yet puppy dog tame, lead broke, Houston Reserve Grand Champion look and perform on your herd? Don't miss your chance to find out!

WSI Dai 2 Momigi	MOMI GI MARU	NAMIMARU NAOMI

From the heart of the Naomi Family from Wagyu Sekai, we present a rare Fullblood Red Wagyu bull sired by Judo-FB102.

Dare we say, he is a mighty fine looking bull.

The dam is recessive genetic free, WSI Dai 2 Momigi-FB13803 is sired by Shigemaru.

The maternal grand dam, Momigimaru-FB10979 is sired by the great Japanese Red Sire, "Namimare".

Both the maternal grand dam and the great grand dam, "Naomi" were both direct imports from Kumamoto, Japan.

Take a look and have a drink of Red Rum"!!!! Genetic disorder test pending.

JC RUESHAW 76 • Sells as Lot 79

79 JC RUESHAW 76

Red, Horned, Fullblood Bull

Birth Date: 1/6/13 **Reg. No.** FB14990

Consignor: CHISHOLM CATTLE COMPANY

RUESHAW	RUEMEI H39	RYUEI H20 HARUMI H376 SOCHU H10
	KIKUTAMA 14285 HIKARI	KIKUFUJI DAI 10 MITSUMARU KAZUTOMO
JC MS HIKARI 40	JVP MS HOMARE J 30E	JUDO JVP 27-HOMARE 128

As the first Rueshaw son to appear at a producers' sale, this powerful young bull offers an unprecedented opportunity for Wagyu breeders to establish a new full blood line to expand the limited genetic base. His sire's genetics are extremely rare among full bloods. Rueshaw's semen was so highly prized that 5 straws sold for a record \$25,000 at the 2012 sale. First to be registered in the U.S., Rueshaw was the only Japanese National Champion to leave Japan. Aside from this unique status, what gives his bloodline such great potential is that Rueshaw has no ancestors in common with the other original imports, many of whom are closely related. #76's dam is a hefty daughter of Hikari, a mainstay of HeartBrand's breeding program. Hikari is a son of Dai 10 Mitsumaru, who was the best marbling red in Japan. Her pedigree includes Judo, who is also notable for high marbling. According to Eldon Clawson of Rocky Mtn. Wagyu, "It is my opinion that of all the Rueshaw sons that I have seen, and I have seen all of the full blood red sons registered, #76 stood out to me as having the best bone quality and the best bone structure. To be more specific, he has the best rump structure by far of those I have seen and is the smoothest shouldered of the current breeding age Rueshaw sons." #76 will offer a low inbreeding coefficient within the Kumamoto red strain and 0% with the blacks strains, which will provide maximum hybrid vigor and healthier calves. He tested free of the genetic disorders. News flash from the Houston Livestock Show: This bull's red half-brother, JC Rueshaw 75, ranked #1 for marbling (Avg. Prime) of the 37 red or black Wagyu's in the show on 3-12-14, a result rarely seen.

Rarely does an opportunity to purchase a fully credentialed potential breed changer like this anomaly of an animal come along. It helps to win 2014 Senior Bull Champion at the biggest livestock show on earth when you scan a 17.25" rib eye, (the largest of the show at Houston), a freakishly small back fat of 0.13! (The smallest of the show at Houston), while still maintaining a BMS of 7.71 (high choice/low prime) all at 17 months! A fall calf born out on pasture, never intended to be shown, this 100% recessive carrier free, grass conversion king dropped jaws at yearling weigh in coming straight off pasture tipping the scales at 1140 lbs. despite never having tasted grain! One can only speculate how even these spectacular ultrasound numbers would have been different if he had not been feed bunker broke straight off pasture as a yearling only FOUR months earlier! As a Hikari grandson over a Big AI, line bred Akiko dam, this pedigree leaves nothing to be desired. It is not often the opportunity comes along to hand lead a puppy dog tame Houston Senior Champion to their trailer boasting such a potent combination of genetics and elite performance. Chubby Buddy has what it takes to change registered and commercial herds including yours and will pay for himself over and over again and again for generations. Don't get caught saying "I can't believe I let the champ slip away!" Snap a lead on him and take him home today!

LOTS 88 & 89

If you are looking to improve marbling here is a great chance. Lot 88 is potentially the number three marbling female in the Wagyu Breed and lot 89 is the top marbling Shigeshigetani daughter.

TERMS

The Buyer will choose a bull to flush this female to. An IVF flush using Sexed Heifer will be performed and the eggs will be transferred to Greenman Farms recipients. Buyer will get choice of these heifer calves at weaning. Heifer will be tested and guaranteed free of all known genetic disorders. 50% of the purchase price is due sale day, and the other 50% will be due upon delivery of the calf. All shipping and semen costs are the buyers expense.

Beautiful heifer. Very feminine, large framed and great temperament. Her mother is one of our top cows. F11 Free. Embryos by our young stud sire, Bald Ridge Henshin. A grandson of the great Kajikari. His EBVs are way, way above breed average and climbing. A definite bull of the future. One of the few Kajikari descendants that is F11 free.

BALD RIDGE HOMARE BLUE - DAM OF LOT 104

105 FIVE FEMALE FROZEN RED/BLACK EMBRYOS

Consignor: **CHISHOLM CATTLE COMPANY**

JC RUESHAWSAN 65	RUESHAW	RUJEMEI H39 KIKUTAMA SR Y13 SANJI UKB KIKUYASU 124 SHIGESHIGENAMI FUKUYUKI
	JC MS SANJIYASU 018 ITOSHIGENAMI	CHR TAKAZAKURA 101L UTSUKUSHII
JC MS ITOSHIGENAMI 010	TAKANA 143	

Donor is our super cow #10, whose embryos were the top sellers in the 2013 sale. She ranks high in our herd for strength, depth, and muscling. Her sire, Takeda's Itoshigenami 148, is the only foundation bull from the famous "Nami" line, which some breeders regard as the best Tajima sub-strain due to the fineness of the marbling and meat texture. The sire of these embryos is our impressive black Rueshaw son, #65, half-brother to the #1 marbling Wagyu (an astonishing Avg. Prime) & Grand Champion Red Bull at the 2014 Houston Livestock Show. His pedigree blends the rare genetics of his Japanese National Red Champion sire with stellar carcass quality in his dam's lineage, which includes Sanjirou and Kitateruyasudoi. With a balance of 50% Tajima, 31% Kumamoto red, & 19% Fujiyoshi genetics, there was a low (1%) inbreeding coefficient in this mating. The highly desirable traits from these bloodlines and the superb conformation of the sire and dam will produce top quality females. One can expect excellent marbling plus above average milk, frame, and growth. Free of genetic disorders. Note: Semen sorting is 90% accurate.

HOW TO PARTICIPATE AS AN ABSENTEE BUYER

We have made preparations to bid and buy your livestock through Superior Productions' "Call or Click-To-Bid" service for those unable to attend in person on sale day. Please note that all of the lots in the sale will also be available for viewing online prior to sale day at www.superiorlivestock.com.

HERE'S HOW IT WORKS

Turn in Bids Over the Phone. This is our traditional method of buying livestock. To get started simply go online to www.superiorlivestock.com and click on the tab titled "Register for a Buyer Number". Select the registration form for Superior Productions and print the registration form, fill it out and fax it in to Superior Productions at (817) 378-3380 with a signature on it. You can also mail it in to the address provided on the form. Upon receipt of this information Superior will call you with a buyer's number and the bid line phone number that you will use on sale day to place bids over the phone.

Click-To-Bid. This is Superior's newest way to buy livestock! Please note that high speed internet is required – this is not for dial-up or satellite internet. Registration is free, but you must become a member of www.superiorclicktobid.com to sign up. Becoming a member is easy – just go to the homepage of www.superiorclicktobid.com and follow the out-lined steps to get started. Input your information and select a username and password. You will receive an e-mail confirming you are a member. From that point forward you just have to sign in and select the sale you would like to register for and once approved you will receive an e-mail confirming which sale you are now registered for.

Viewing the Auction. The sale will be broadcast live on the internet at www.superiorclicktobid.com – just go to the home page and select the auction. Remember, you can call in to bid over the phone when watching on the internet if you have registered for that service, but you must be a member of www.superiorclicktobid.com to "click-to-bid" and bid online. Your computer must have Flash Media Player installed to view the auction.

Bidders who are successful in making purchases will be contacted by Superior Productions after the sale to settle payment and discover your shipping plans.

WAGYU

The Wagyu Legacy

WHERE EAST MEETS WEST

2014 ANNUAL AWA CONFERENCE
OCTOBER 29-31 SAN ANTONIO, TX

The 2014 Annual Conference for the American Wagyu Association is scheduled for October 29-31 at the Hyatt Regency Hotel in beautiful San Antonio, Texas. This historical setting highlights the very essence of western culture for this year's theme, "The Wagyu Legacy- Where East Meets West".

To reaffirm this, the James Beard Celebrity Chef Dinner will be held on Friday evening, highlighting top chefs who will delight taste buds throughout the conference. Experience the revolution of supreme taste and immaculate superiority.

Cultivating an atmosphere of Japanese legacy and world class quality, the Wagyu breed has held it's position as the best beef in the world.

Taste Excellence
